PAINT CATALOG

SEALER

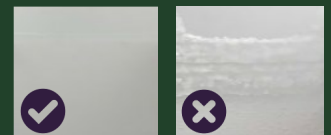

ULTRAPRIME

Formulated for interior and exterior walls to protect the finishing coats against the effects of mild alkalinity and efflorescence.

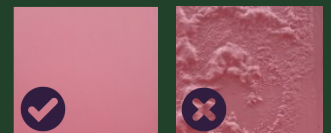

Superior hiding power to perfectly cover the new cement wall. Reduce amount of coated layer for top coat

- SUPERIOR HIDING POWER
- ALKALINE RESISTANCE
- EFFLORESCENCE RESISTANT
- ECO PACK

Alkaline Resistance

Efflorescence Resistance

INTERIOR PAINT

MEGAMAX

Special design and new technologies formulation to enhance coating performance by achieving high protection with excellent hiding power. It is the perfect balance between the performance and cost.

- HIGH HIDING POWER
- NO ADDED LEAD OR CHROME
- EASY APPLY
- ECO PACK

Comparison of hiding power

EXTERIOR PAINT

ULTRASHIELD

Premium grade to provide excellent alkaline resistance, stain & dirt resistance, high adhesion properties & excellent durability against chalking, peeling and harsh weather. Provide more than 5 years of protection against fungus and algae growth.

Stain and Dirt Resistance

Chalking

ecoSOLUTIONS

ecoPackaging

Enjoy a rebate up to 15% with our ecoPackaging. Variety of ecoPackaging available: 18L recycle pail, 200L recycle bung hole plastic drum and 1MT IBC Tank.

All the open-top recycled packaging will be packed with inlet liner to prevent paint leaking and reduce product contamination.

Bulk purchase quantity can be done by using your own packaging material also upon discussion, to reduce packaging cost and reuse back the packaging material.

Our paint product is stored in a plastic inlet liner inside the containers that make it convenient to reuse and recycle the containers while reducing the packaging waste.

Purchase of the paint with recycled packaging will entitle you to get a cheaper price, without the container cost.

Reusing or repurposing paint containers yourself is another option. It can be reused as buckets, storage containers, trash bins, and small composting containers. Create beautiful stool chair, fill empty paint containers with sand or cement to create anchor weights tents, or drill drainage holes to create outdoor planters.

18L Plastic Inlet Liner

Paint it right, so you don't need to paint it twice
